Output:-

Welcome to the Web Page

This is a Inline Style Heading

Cascading Style Sheets (CSS) is a style sheet language used for specifying the presentation and styling of a document written in a markup language such as HTML or XML. CSS is designed to enable the separation of content and presentation, including layout, colors and fonts. This separation can improve content accessibility.

SUBJECTS

1. Advanced data Structures
2. Advanced software engineering
3. Mathematics
4. Digital Fundamentals

PROGRAMMING LANGUAGES

- Java
- Python
- C++

EXPERIMENT-5

Aim: Create an html file by applying different styles using inline, external and internal style sheets.

Procedure:

```
<html>
<head>
<title>CSS Styles</title>
<link rel="stylesheet" href="external-sheet.css">
<style>
p{
   color: skyblue;
   text-align: center;
 }
</style>
</head>
<body>
<h1><center>Welcome to the Web Page</center></h1>
<h2 style="color:red;font-size:26px;"><i><u>
            This is a Inline Style Heading</i></u></h2>
                                    <!....Inline style...>
